Don't Contribute to Counterfeiters KNOW YOUR MONEY!

Don't Be Fooled by Forgers KNOW YOUR ENDORSERS!

The Government never redeems counterfeit money!

1. KNOW YOUR MONEY! Study the bills you receive so as to become familiar with the workmanship on them, especially in the portraits.

2. COMPARE a suspected bill with a genuine of the same type and denomination. Observe these things:

PORTRAIT	*Counterfeit*–	Dull, smudgy, or unnaturally white, scratchy; oval background is dark, lines irregular and broken. Portrait merges into the background.
	Genuine–	Stands out distinctly from the oval background. Eyes appear lifelike. Background is a fine screen of regular lines.
COLORED SEAL	*Counterfeit*–	Saw-tooth points around rim are usually uneven, broken off.
	Genuine–	Saw-tooth points around rim are even and sharp.
SERIAL NUMBERS	*Counterfeit*–	Poorly printed, badly spaced, uneven in appearance.
	Genuine–	Figures firmly and evenly printed, well spaced.
PAPER	*Counterfeit*–	Generally has no silk threads, but these may be imitated by very small red and blue ink lines.
	Genuine–	Printed on distinctive paper in which very small red and blue silk threads are scattered. The silk threads are not always noticeable on bills that are badly soiled or worn.

3. RUBBING a bill on a piece of paper will *not* prove it is genuine or counterfeit; ink can be rubbed from good bills as well as bad ones.

4. CONSULT an experienced money-handler or police officer to make sure, if you are still in doubt, whether a bill is genuine or counterfeit.

5. REMEMBER, NOT ALL STRANGERS ARE COUNTERFEITERS, BUT ALL COUNTERFEITERS ARE LIKELY TO BE STRANGERS.

This information is reprinted from the U.S. Secret Service 32-page booklet, "KNOW YOUR MONEY", which tells how to detect counterfeit coins and bills and how to guard against losses from forged Government checks. Copies may be purchased for 10¢ each, or $7.50 per 100 from the Superintendent of Documents, Government Printing Office, Washington, D.C.

A STATEMENT
OF
ADVERTISING PRINCIPLES

1. Good Advertising — aims to inform the consumer and help him to buy more intelligently.
2. Good Advertising — tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.
3. Good Advertising — conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.
4. Good Advertising — recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

Advertising Federation of America

(Your Directory publishers fully subscribe to the principles set forth in this statement)

When you buy a home . . .

Your deed alone is not sufficient assurance that you are the new owner. Additional protection is essential: real estate ownership insurance.

It is important that you know who the legitimate holders of the rights and interests in your land are, and the precise nature and scope of their rights and interests.

√ √ √ √ √

A Security Title Insurance policy states who owns the land, as shown by the public records; and, subject to certain exceptions, who else, if anyone, has an interest in it. It also states what encumbrances and charges exist against the property – all as of the policy date.

SACRAMENTO

Sacramento Directory Co.'s

SACRAMENTO

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

INCLUDING NORTH SACRAMENTO, WEST SACRAMENTO AND BRODERICK

1957

Copyright, 1957, by Sacramento Directory Co.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)

(This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.)
